# Autechre. Anti EP. WAP54CD.

**Lost. Djarum. Flutter.**

Autechre Production. Booth/Brown. Warp Music/EMI Music. The Designers Republic.  
© & © 1994 Warp Records. All rights reserved. Made in England.

**Warning. Lost and Djarum contain repetitive beats.**

We advise you not to play these tracks if the Criminal Justice Bill becomes law. Flutter has been programmed in such a way that no bars contain identical beats and can therefore be played at both forty five and thirty three revolutions under the proposed new law. However we advise DJs to have a lawyer and a musicologist present at all times to confirm the non repetitive nature of the music in the event of police harassment.

**Important.**

By breaking this seal, you accept full responsibility for any consequential action resulting from product's use, as playing the music contained within these recordings may be interpreted as opposition to the Criminal Justice and Public Order Bill.
